15.6" Lateral Protection classic clam case

Others may claim it or boast it but at Techair we tell you how it is. This new classic clam is an absolute stunner! For many years the best selling classic laptop bag was the good old "clam" case. But as with all things, even a timeless classic needs a major refresh and this is exactly what the Techair 3113 does, The difference is noticeable from its curved shaped expandable front pocket which neatly holds all those internal spaces and pockets for your phone, mp3 player, pens and accessories, allows you to fill it with documents, cables and leads as it has an ergonomic expandable section which can be easily unzipped. The main compartment includes our unique lateral protection on the base and sides of the case gives added protection to your laptop, netbook or tablet. And there's more.... There's a useful back slip pocket which can be used to carry around even more of those essential accessories and paperwork, or if you prefer for those occasions when you're travelling with other luggage, you can unzip the bottom of this pocket and you have an immediate and ready to use trolley strap. We think you'll agree with us that this really is setting the trend and the benchmark for a new classic clam case.

Lateral protection, Hand luggage, 1 compartment, 1 expandable front pocket, Document friendly, Cable friendly, Accessory panel, Back slip pocket which converts into trolley strap, Showerproof 600D material, Phone pocket, Cd pockets, Pen holders, Adjust able shoulder strap, Removable shoulder strap, Internal folio slip pocket.
